Principal, Thornton Tomasetti

### ***Catastrophic Structural Failures – from Hyatt to Haiti***

William Bast has more than 25 years of experience, his areas of technical expertise include structural engineering and design, building failure investigations, litigation support, building façade evaluation, remedial repair of distressed buildings, and restoration and preservation of old and historic structures. His work experience includes residential and office projects, commercial and retail facilities, and adaptive re-use of existing structures. Mr. Bast will provide an overview of structural engineering including both design and forensics. He will discuss the collapses of the Kansas City Hyatt Regency, the Hartford Civic Center, I-35 bridge. He'll provide insight on the earthquake in Haiti, why that earthquake caused so much death and destruction, and what The National Council of Structural Engineers Associations (NCSEA) is trying to do with regard to uniform structural engineering licensing.

**Registration fee: \$60 per person. Spouses/guests are welcome.**
